

## ONE RUSTY BAND (TECHNICAL RIDER)

The stage must be a flat and stable space about 5 meters wide and 3 meters deep (or at last 5 meters wide and 2 meters deep). The stage monitors must be removed from the front and put on side on the ground to have the visual on the feet.

On big stages (on small, no need ), 1 stage riser of 2meters x 2meters stage right and 1 of 2m x 2m stage left (if it's possible on wheels). For electricity two 16 amp sockets on each side of the stage.

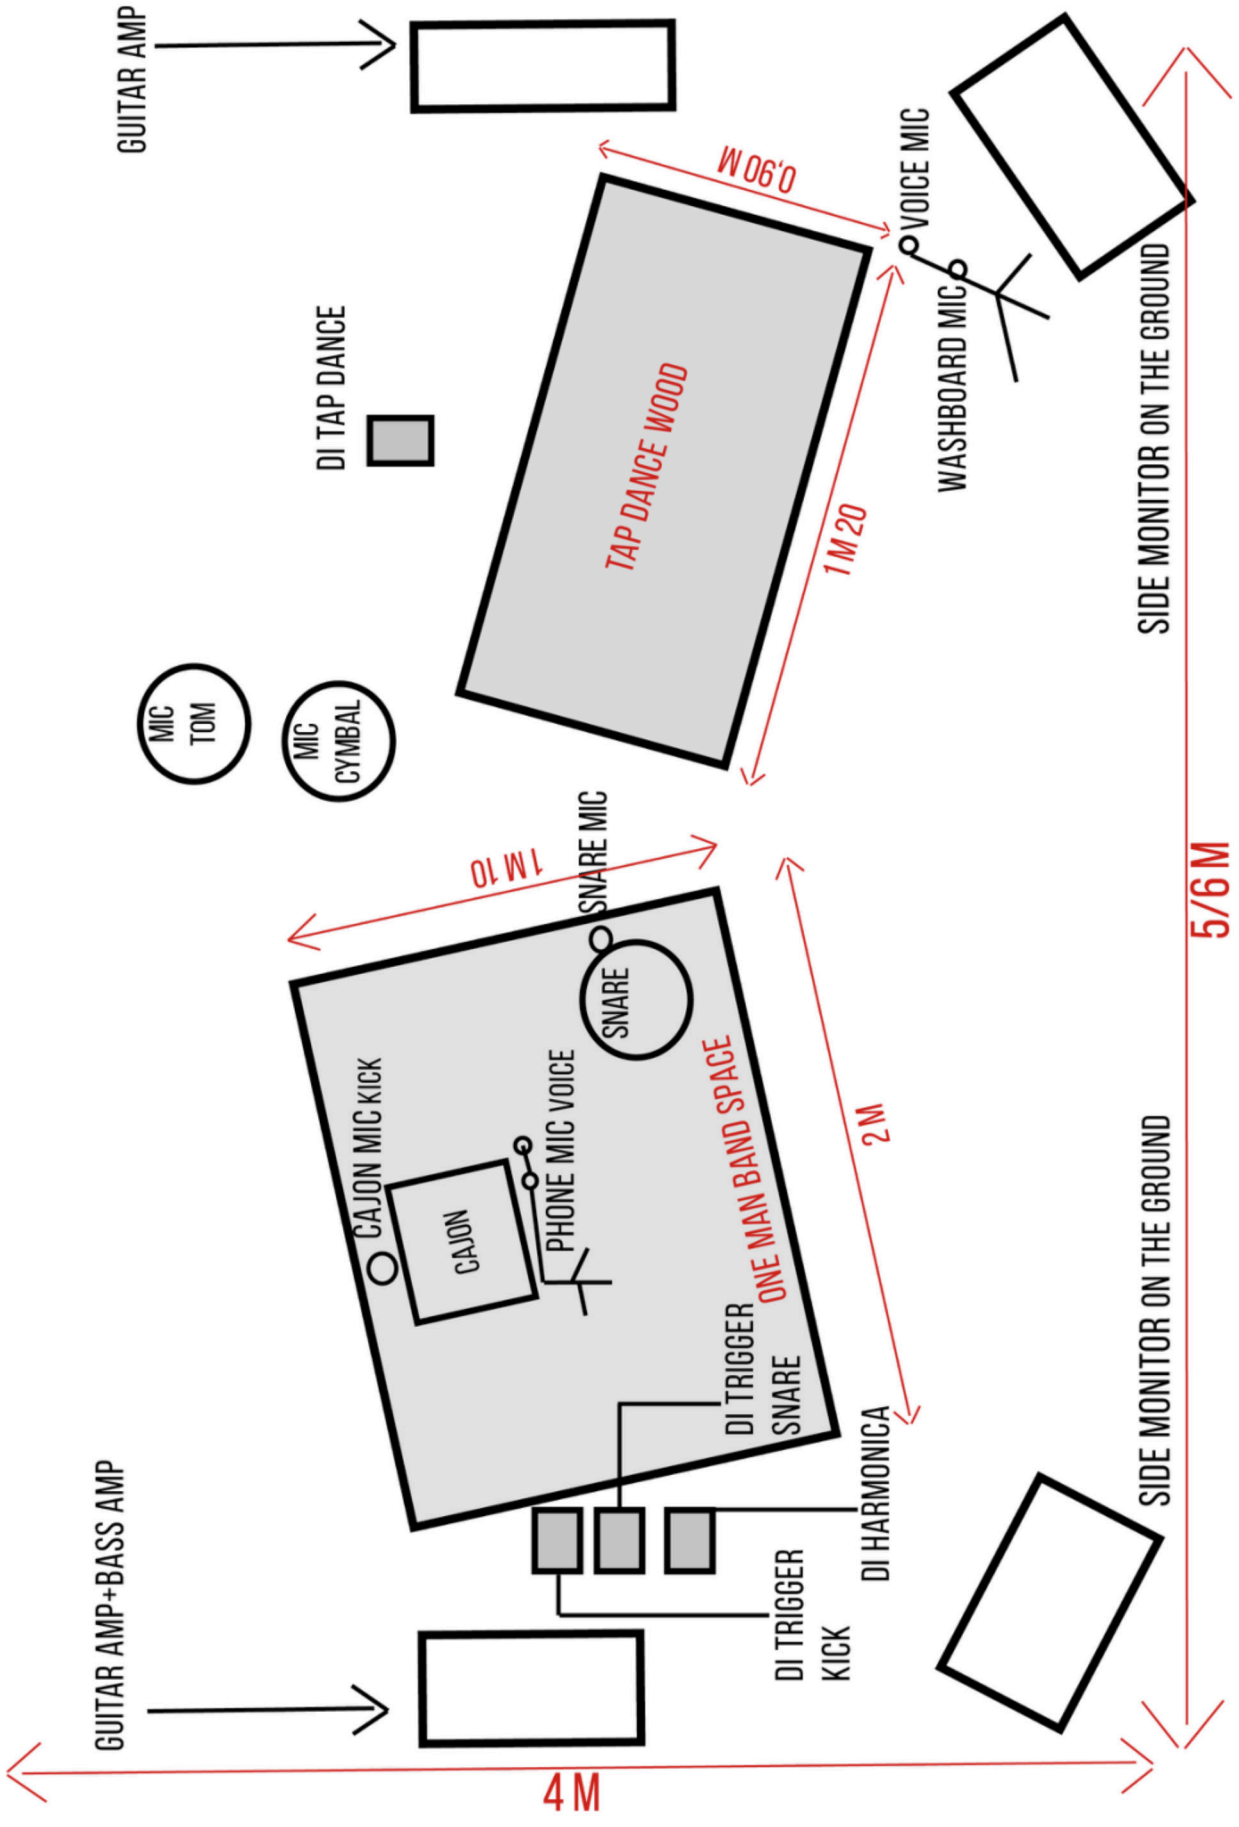

We provide all the mic and the stands.

We just need 4 D.I and the XLR
